MASTER TDC + PDC REVIEWER AND GUIDE

For Philippine student drivers and license applicants

This reviewer is based on the official **LTO Filipino Driver's Manual**, the LTO driver education program, and core Philippine road-safety laws commonly covered in TDC and PDC training. The **TDC** is the required classroom course before a student permit, and the **PDC** is the required practical course before a non-professional or professional license application. The questions below are **reviewer questions patterned after official topics and laws**, not a leaked official exam bank.

Table of contents

1. What is TDC
2. Complete TDC reviewer
3. 50 easy multiple-choice questions for TDC
4. 50 hard multiple-choice questions for TDC
5. What is PDC
6. Complete PDC reviewer
7. 50 medium multiple-choice questions for PDC

---

1. What is TDC

TDC or **Theoretical Driving Course** is the mandatory classroom-based driver education required before a person can get a **student-driver's permit**. LTO materials and issuances describe it as a required theoretical course covering road and traffic rules, signs, signals, markings, and safe driving principles.

In practice, TDC prepares a student to:

- understand Philippine traffic laws and road signs,
- answer the written examination,
- build safe and lawful driving habits before actual road driving.

---

2. Complete TDC reviewer

A. Driver responsibility

Driving is a **privilege**, not a right. A lawful driver must know the rules, stay fit to drive, obey road signs, respect pedestrians, and never drive in a way that endangers life or property. The official LTO manual centers driver education on road safety, lawful conduct, and responsible operation of a motor vehicle.

A responsible driver should:

1. Be physically and mentally fit to drive.
2. Never drive while drunk, drugged, sleepy, or badly distracted.
3. Check the vehicle before use.
4. Obey traffic signs, signals, enforcers, and road markings.
5. Protect passengers, pedestrians, cyclists, and other motorists.

B. Core Philippine road laws commonly covered in TDC

These are among the most test-relevant laws and rules:

- **RA 4136**: the Land Transportation and Traffic Code; this is the basic traffic law framework for registration, licensing, and road rules.

- **RA 8750**: the **Seat Belts Use Act of 1999**; requires seat belt use for drivers and front-seat passengers of covered vehicles.

- **RA 10913**: the **Anti-Distracted Driving Act**; penalizes using mobile communication devices and other distractions while driving, with limited exceptions.

- **RA 10586**: the **Anti-Drunk and Drugged Driving Act of 2013**; prohibits driving under the influence of alcohol, dangerous drugs, and similar substances.

- **RA 11229**: the **Child Safety in Motor Vehicles Act**; requires appropriate child restraint systems for covered child passengers in private motor vehicles, subject to the law and implementing rules.

C. Road users

Philippine roads are shared by:

- pedestrians,

- cyclists,

- motorcyclists,

- private motorists,

- public utility vehicles,

- emergency vehicles,

- trucks and buses.

The safest driver always assumes that vulnerable road users, especially pedestrians and children, need extra care.

D. Traffic signs

LTO materials classify traffic signs into three basic groups: **regulatory signs**, **warning signs**, and **informative/guide signs**.

1. Regulatory signs

These tell you what you **must do** or **must not do**.

Common examples:

- STOP
- YIELD / GIVE WAY
- NO ENTRY
- NO U-TURN
- NO LEFT TURN
- NO RIGHT TURN
- NO OVERTAKING
- SPEED LIMIT
- NO PARKING

Rule: If you ignore a regulatory sign, you are violating a road rule.

2. Warning signs

These warn you about danger or unusual road conditions ahead.

Common examples:

- curve ahead
- slippery road
- pedestrian crossing

- road works
- school zone
- railroad crossing
- narrow bridge
- steep descent

Rule: A warning sign does not usually order you to stop, but it tells you to **slow down and prepare**.

3. Guide or informative signs

These give directions, route information, or location of services.

Common examples:

- hospital
- parking
- gas station
- route markers
- directional signs
- one-way information signs

E. Traffic signals

Basic meanings:

- **Red**: stop.
- **Green**: go only if the intersection is clear.

- **Yellow**: slow down and prepare to stop. Do not beat the light.
- **Flashing red**: treat like a stop; stop first, then proceed when safe.
- **Flashing yellow**: proceed with caution.

Important rule: If a traffic enforcer's hand signal conflicts with the light, follow the **traffic enforcer**.

F. Road markings

Common markings:

- **Broken white line**: lane change may be allowed when safe.
- **Solid white line**: lane changing is discouraged or restricted depending on context.
- **Solid yellow line / double solid yellow line**: no overtaking or crossing into opposing traffic.
- **Stop line**: where vehicles must stop.
- **Pedestrian lane / crosswalk**: area reserved for pedestrians crossing.

G. Right-of-way rules

Common exam points:

1. **Pedestrians** on a proper crossing must be given way.
2. At an uncontrolled intersection, yield as required by the situation; a common rule taught is to yield to the vehicle on the **right** when arriving at the same time.
3. At a **roundabout**, yield to vehicles already inside.
4. Yield to **emergency vehicles** with sirens or flashing lights when safe to do so.

5. When turning left, yield to **oncoming traffic** and pedestrians.

H. Speed and control

Speed should always fit:

- the posted limit,
- road condition,
- traffic,
- weather,
- visibility,
- pedestrian activity.

Even if the road seems clear, a driver can still be unsafe if driving too fast for conditions.

I. Defensive driving

Defensive driving means driving in a way that **prevents danger before danger becomes a crash**.

Core habits:

- scan ahead,
- keep a safe following distance,
- avoid distractions,
- expect mistakes from other road users,
- brake early and smoothly,
- never assume you were seen.

A practical classroom rule is the **3-second rule** for following distance. Increase this in rain, darkness, or heavy traffic.

J. Overtaking and lane discipline

Overtake only when:

- it is legal,
- the road ahead is clear,
- there is enough space,
- you can return safely without forcing another driver to brake.

Do **not** overtake:

- on solid yellow lines,
- near intersections,
- near curves or hillcrests,
- near pedestrian crossings,
- where signs prohibit it.

K. Parking rules

Do not park:

- on a pedestrian crossing,
- too near an intersection,
- where a sign prohibits parking,
- where you block traffic, a driveway, or a sidewalk,

- in a way that creates danger.

When parking:

- stop fully,
- align properly,
- apply handbrake,
- secure the vehicle.

L. Seat belts, child safety, phone use, and alcohol

High-yield legal points:

- Seat belts are mandatory under **RA 8750** for covered drivers and front-seat passengers.
- Using a handheld phone or similar device while driving is generally prohibited by **RA 10913**, with limited exceptions in the law.
- Driving under the influence is prohibited by **RA 10586**.
- Child passengers in covered private vehicles must be properly protected under **RA 11229** and its implementing rules.

M. Emergency situations

Basic TDC responses:

- **Brake failure**: stay calm, downshift if possible, use braking methods safely, and steer to a safe area.
- **Tire blowout**: hold wheel firmly, do not panic, slow down gradually.
- **Skid**: avoid panic, reduce speed, regain control smoothly.

- **Overheating**: stop safely and address the problem only when safe.

N. Written exam strategy

For TDC questions:

1. Read the exact keyword: **must**, **should**, **not**, **always**, **when safe**.
2. Eliminate answers that are aggressive, careless, or illegal.
3. LTO exam questions usually favor the answer that is **safest and most lawful**.
4. If two answers seem possible, choose the one that protects life more.

---

3. 50 easy multiple-choice questions for TDC

1. What does a red traffic light mean?
   A. Go
   B. Stop
   C. Turn right
   D. Slow down
   Answer: B

2. What does a green traffic light mean?
   A. Stop
   B. Go if the intersection is clear
   C. Turn left only
   D. Reverse
   Answer: B

3. What does a yellow light mean?
   A. Speed up
   B. Prepare to stop
   C. Ignore it

D. Park
Answer: B

4. What must you do at a STOP sign?
   A. Slow down only
   B. Stop completely
   C. Honk first
   D. Turn left
   Answer: B

5. A broken white line means:
   A. No overtaking
   B. Lane change allowed when safe
   C. Stop line
   D. Parking lane
   Answer: B

6. Pedestrians have the right of way at:
   A. Bus terminals
   B. Crosswalks
   C. Parking lots
   D. Garages
   Answer: B

7. Seat belts are required for:
   A. Drivers only
   B. Front-seat passengers only
   C. Drivers and front-seat passengers of covered vehicles
   D. No one
   Answer: C

8. Defensive driving means:
   A. Driving aggressively
   B. Driving safely to avoid accidents
   C. Driving fast
   D. Racing
   Answer: B

9. Speed limits exist to:
   A. Delay drivers

B. Improve safety
C. Increase fines
D. Waste time
Answer: B

10. Emergency vehicles should be:
    A. Ignored
    B. Given way when safe
    C. Followed closely
    D. Blocked
    Answer: B

11. A slippery road sign tells a driver to:
    A. Speed up
    B. Reduce speed
    C. Reverse
    D. Park
    Answer: B

12. Drivers must obey:
    A. Traffic signs
    B. Traffic signals
    C. Traffic enforcers
    D. All of the above
    Answer: D

13. Road courtesy means:
    A. Respecting other road users
    B. Honking often
    C. Driving fast
    D. Ignoring slow drivers
    Answer: A

14. Safe following distance helps prevent:
    A. Parking errors
    B. Collisions
    C. Fuel loss only
    D. Tire wear only
    Answer: B

15. At a pedestrian lane, a driver must:
    A. Speed up
    B. Give way to pedestrians
    C. Ignore people crossing
    D. Blow the horn continuously
    Answer: B

16. Drivers should avoid:
    A. Mirrors
    B. Signals
    C. Distractions
    D. Seat belts
    Answer: C

17. Safe drivers always:
    A. Stay alert
    B. Use phones while driving
    C. Speed up in traffic
    D. Ignore road signs
    Answer: A

18. Overtaking is prohibited on:
    A. Solid yellow lines
    B. Broken white lines
    C. Open roads always
    D. Expressways always
    Answer: A

19. Drivers approaching an intersection must:
    A. Speed up
    B. Slow down and observe
    C. Ignore cross traffic
    D. Reverse
    Answer: B

20. A “No Entry” sign means:
    A. Vehicles may enter slowly
    B. Vehicles are not allowed to enter
    C. Parking allowed
    D. U-turn allowed

Answer: B

21. A speed limit sign shows:
    A. Minimum speed
    B. Maximum allowed speed
    C. Average speed
    D. Suggested overtaking speed
    Answer: B

22. Warning signs usually tell drivers:
    A. Road hazards ahead
    B. Parking is allowed
    C. Fuel station ahead only
    D. Where to stop always
    Answer: A

23. Which light should you use at night?
    A. Parking lights only
    B. Headlights
    C. Hazard lights only
    D. Brake lights only
    Answer: B

24. Before changing lanes, you should first:
    A. Speed up immediately
    B. Signal and check mirrors
    C. Honk continuously
    D. Stop in your lane
    Answer: B

25. Blind spots are areas:
    A. Seen clearly in mirrors
    B. Not visible in mirrors
    C. Under the tires
    D. On the dashboard
    Answer: B

26. Before reversing, you should:
    A. Accelerate
    B. Check behind the vehicle

C. Turn off the engine
D. Honk only
Answer: B

27. Parking on a pedestrian crossing is:
    A. Allowed
    B. Prohibited
    C. Allowed at night
    D. Allowed on Sundays
    Answer: B

28. Drivers should slow down near schools because:
    A. There may be children crossing
    B. Parking is free
    C. Roads are always wider
    D. Vehicles are faster there
    Answer: A

29. A green light does not mean:
    A. Go if clear
    B. Ignore pedestrians
    C. Proceed carefully
    D. Enter only if safe
    Answer: B

30. When it is raining, drivers should:
    A. Speed up
    B. Reduce speed
    C. Ignore road conditions
    D. Turn off headlights
    Answer: B

31. At a roundabout, drivers should yield to:
    A. Vehicles already inside
    B. Vehicles behind them only
    C. No one
    D. Pedestrians only
    Answer: A

32. A driver must carry a valid:
    A. Passport
    B. Driver’s license or permit, as applicable
    C. Barangay certificate only
    D. Police clearance
    Answer: B

33. Using a handheld mobile phone while driving is generally:
    A. Safe anytime
    B. Prohibited
    C. Required
    D. Recommended
    Answer: B

34. Proper use of mirrors helps a driver:
    A. Decorate the car
    B. Monitor traffic around the vehicle
    C. Reduce fuel use
    D. Drive faster
    Answer: B

35. A stop line indicates where a driver must:
    A. Turn left
    B. Stop
    C. Speed up
    D. Park
    Answer: B

36. The horn should be used:
    A. To warn when necessary
    B. All the time
    C. To pressure slow drivers
    D. Instead of braking
    Answer: A

37. Illegal parking can result in:
    A. Reward points
    B. Penalties or fines
    C. Free towing
    D. License upgrade

Answer: B

38. When an ambulance approaches with siren, you should:
    A. Continue normally
    B. Give way when safe
    C. Race ahead
    D. Block the lane
    Answer: B

39. Which is a guide sign?
    A. Stop
    B. Curve ahead
    C. Hospital
    D. No parking
    Answer: C

40. Which is a regulatory sign?
    A. No U-turn
    B. Curve ahead
    C. Hospital
    D. School crossing ahead
    Answer: A

41. Which is a warning sign?
    A. Parking
    B. Slippery road
    C. No entry
    D. Stop
    Answer: B

42. Following too closely is dangerous because:
    A. It saves fuel
    B. It increases collision risk
    C. It improves overtaking
    D. It helps braking
    Answer: B

43. Before starting the vehicle, you should:
    A. Adjust seat and mirrors
    B. Honk twice

C. Open all windows
D. Rev the engine
Answer: A

44. Drivers must stop at a red light:
A. Only in daytime
B. Unless otherwise directed by a traffic enforcer
C. Only on highways
D. Only when other vehicles stop
Answer: B

45. A driver maintains lane discipline by:
A. Staying within lane markings
B. Swerving often
C. Overtaking without signal
D. Driving on the shoulder
Answer: A

46. What should you do if tired while driving?
A. Continue driving faster
B. Stop and rest
C. Ignore the feeling
D. Drink soda and continue
Answer: B

47. Headlights should be used in:
A. Low visibility
B. Noon only
C. Gas stations only
D. Parking slots only
Answer: A

48. The safest attitude while driving is to be:
A. Patient and alert
B. Aggressive
C. Competitive
D. Careless
Answer: A

49. What law covers mandatory seat belt use?
    A. RA 10913
    B. RA 8750
    C. RA 10586
    D. RA 11229
    Answer: B

50. The most important rule in driving is to:
    A. Reach your destination quickly
    B. Prioritize safety
    C. Follow other drivers
    D. Use the horn often
    Answer: B

---

4. 50 hard multiple-choice questions for TDC

1. A flashing yellow traffic light means:
    A. Stop completely
    B. Proceed with caution
    C. Turn right only
    D. Speed up
    Answer: B

2. When two vehicles arrive at an uncontrolled intersection at the same time, who generally has priority under common right-of-way teaching?
    A. The larger vehicle
    B. The faster vehicle
    C. The vehicle on the right
    D. The vehicle on the left
    Answer: C

3. Hydroplaning happens when:
    A. Brakes overheat
    B. Tires lose contact with the road because of water
    C. Engine overheats

D. Steering locks
Answer: B

4. When entering a highway from an on-ramp, you must:
   A. Stop in the middle of the ramp
   B. Yield to highway traffic
   C. Reverse if no opening appears
   D. Use hazard lights only
   Answer: B

5. If oncoming headlights are too bright, you should:
   A. Look directly at them
   B. Look slightly toward the right side of your lane
   C. Turn off your own lights
   D. Close your eyes briefly
   Answer: B

6. If a vehicle is tailgating you, the safest action is to:
   A. Brake suddenly
   B. Let it pass when safe
   C. Speed up beyond the limit
   D. Tailgate it back
   Answer: B

7. If your tire blows out while driving, you should:
   A. Slam on the brakes
   B. Hold the wheel firmly and slow down gradually
   C. Turn off the engine immediately
   D. Make a sharp turn
   Answer: B

8. A malfunctioning traffic signal should generally be treated as:
   A. A green light
   B. A stop situation requiring caution
   C. A parking sign
   D. A freeway sign
   Answer: B

9. The safest response to an aggressive driver is to:
   A. Confront the driver

B. Avoid confrontation
C. Race the driver
D. Block the lane
Answer: B

10. If you miss your expressway exit, you should:
    A. Reverse on the shoulder
    B. Make a U-turn immediately
    C. Continue to the next exit
    D. Stop and wait
    Answer: C

11. When driving in fog, you should use:
    A. High beam
    B. Low beam headlights
    C. No lights
    D. Brake lights only
    Answer: B

12. Before overtaking, a driver should first:
    A. Check mirrors, signal, and confirm the road is clear
    B. Honk continuously and accelerate
    C. Move out immediately
    D. Drive onto the shoulder
    Answer: A

13. Overtaking is most dangerous:
    A. On a straight, open road
    B. Near a curve or hillcrest
    C. In an empty parking lot
    D. On a wide multi-lane road
    Answer: B

14. If your brakes suddenly fail, you should:
    A. Panic
    B. Slow down safely and steer to a safe area
    C. Turn off the engine at once at high speed
    D. Accelerate
    Answer: B

15. A driver approaching a blind curve should:
    A. Accelerate
    B. Slow down and keep to the proper lane
    C. Overtake quickly
    D. Stay in the center
    Answer: B

16. Distracted driving is dangerous because it:
    A. Saves fuel
    B. Reduces attention and reaction time
    C. Improves focus
    D. Is harmless at low speed
    Answer: B

17. At night, you should switch from high beam to low beam when:
    A. No vehicles are around
    B. Approaching another vehicle
    C. Driving uphill
    D. Parking
    Answer: B

18. The 3-second rule is mainly used to:
    A. Estimate travel time
    B. Maintain safe following distance
    C. Measure overtaking time
    D. Test braking power
    Answer: B

19. If another vehicle is already in the roundabout, you should:
    A. Enter quickly before it reaches you
    B. Yield before entering
    C. Stop inside the roundabout
    D. Honk until it stops
    Answer: B

20. When driving downhill for a long distance, it is safer to:
    A. Stay in a lower gear
    B. Shift to neutral
    C. Turn off the engine
    D. Use hazard lights only

Answer: A

21. When driving uphill, a driver should:
    A. Maintain steady control and proper gear
    B. Shift to neutral
    C. Coast backward if needed
    D. Use the horn often
    Answer: A

22. If your vehicle starts to skid, you should:
    A. Brake hard immediately
    B. Steer smoothly to regain control
    C. Close your eyes
    D. Accelerate sharply
    Answer: B

23. The safest place to stop in an emergency, if available, is:
    A. The middle of the road
    B. The shoulder or a safe roadside area
    C. Any intersection
    D. A pedestrian crossing
    Answer: B

24. Why is it risky to follow a motorcycle too closely?
    A. It saves fuel
    B. Motorcycles can stop or maneuver quickly
    C. Riders prefer it
    D. It improves visibility
    Answer: B

25. If a traffic enforcer’s signal conflicts with a traffic light, follow:
    A. The traffic light
    B. The enforcer
    C. The vehicle ahead
    D. Your passenger
    Answer: B

26. Why is overtaking on a pedestrian crossing prohibited?
    A. It is noisy
    B. It endangers pedestrians and reduces visibility

C. It damages paint
D. It slows traffic
Answer: B

27. On wet roads, stopping distance is:
A. Shorter
B. Longer
C. The same
D. Zero
Answer: B

28. A driver should scan the road ahead to:
A. Admire scenery
B. Anticipate hazards early
C. Ignore near traffic
D. Drive faster
Answer: B

29. A common cause of collisions at intersections is:
A. Looking too early
B. Failure to yield right of way
C. Using seat belts
D. Driving slowly
Answer: B

30. When merging into traffic, you should:
A. Match speed as safely as possible and merge when clear
B. Stop in the lane
C. Force other vehicles to stop
D. Enter without signaling
Answer: A

31. If your engine overheats, you should:
A. Continue driving fast
B. Stop safely and allow it to cool
C. Ignore the warning
D. Add water carelessly at once
Answer: B

32. Why should a driver avoid staying in another vehicle's blind spot?
    A. It uses more fuel
    B. The other driver may not see you
    C. It is always illegal
    D. It makes overtaking easier
    Answer: B

33. A driver who is emotionally upset should:
    A. Drive faster to get home
    B. Calm down before driving
    C. Drink alcohol to relax
    D. Ignore emotions
    Answer: B

34. If there is standing water on the road, the best action is to:
    A. Speed through it
    B. Slow down and avoid sudden movements
    C. Close your eyes
    D. Shift to neutral
    Answer: B

35. Why must drivers avoid stopping on a crosswalk?
    A. It blocks pedestrians and creates danger
    B. It saves fuel
    C. It shortens travel time
    D. It is more visible
    Answer: A

36. The safest way to reverse a vehicle is to:
    A. Rely only on the rearview mirror
    B. Check mirrors, look behind, and move slowly
    C. Reverse quickly
    D. Use the horn only
    Answer: B

37. The main reason for wearing a seat belt is to:
    A. Avoid sweating
    B. Reduce injury in a crash
    C. Improve fuel economy
    D. Help steering

Answer: B

38. A driver approaching a school zone should be especially alert for:
    A. Fast-moving trucks only
    B. Children and pedestrians
    C. Highway exits
    D. Railroad barriers
    Answer: B

39. If rain begins while driving, you should first:
    A. Speed up before the road gets wet
    B. Reduce speed and increase following distance
    C. Stop in the travel lane
    D. Turn off lights
    Answer: B

40. Why is sudden lane changing dangerous?
    A. It confuses the driver
    B. It may surprise other road users and cause collisions
    C. It cools the tires
    D. It affects fuel only
    Answer: B

41. The safest attitude when a pedestrian suddenly crosses is to:
    A. Honk and continue
    B. Slow down or stop as needed
    C. Accelerate past the pedestrian
    D. Swerve blindly
    Answer: B

42. When parking downhill with a curb, you should generally turn the front wheels:
    A. Away from the curb
    B. Toward the curb
    C. Straight ahead
    D. Toward oncoming traffic
    Answer: B

43. A driver should avoid using high beam when:
    A. Alone on a dark road
    B. Following another vehicle closely

C. In the countryside
D. On empty roads
Answer: B

44. Why is proper hand position on the steering wheel important?
A. It looks professional
B. It improves control and reaction
C. It makes the horn louder
D. It saves gas
Answer: B

45. Before opening a car door parked roadside, you should:
A. Open it quickly
B. Check for approaching traffic, cyclists, or motorcycles
C. Honk first
D. Flash headlights
Answer: B

46. A driver who wants to turn should signal:
A. Only while turning
B. Early enough to warn others
C. After completing the turn
D. Only if another car is behind
Answer: B

47. The safest way to handle a flooded road is to:
A. Enter at high speed
B. Avoid it if depth is uncertain
C. Follow closely behind another vehicle
D. Turn off the engine mid-crossing
Answer: B

48. The main purpose of road markings is to:
A. Beautify roads
B. Guide and regulate traffic
C. Show where to wash cars
D. Separate private roads only
Answer: B

49. If a collision seems unavoidable, the driver should:
    A. Let go of the wheel
    B. Brake firmly and keep control
    C. Accelerate more
    D. Close the eyes
    Answer: B

50. The best principle in difficult traffic situations is to:
    A. Be aggressive
    B. Stay calm, alert, and prioritize safety
    C. Follow whatever others do
    D. Depend on luck
    Answer: B

---

5. What is PDC

PDC or **Practical Driving Course** is the mandatory actual driving instruction required before application for a non-professional or professional driver's license. LTO issuances describe it as a **minimum eight-hour practical instruction** requirement, with details depending on the vehicle category and training setup.

PDC prepares the student to:

- operate the vehicle safely,
- apply TDC lessons on real roads,
- perform basic maneuvers,
- pass the actual practical driving test.

---

6. Complete PDC reviewer

A. Purpose of PDC

PDC turns theory into actual skill. The evaluator does not look for speed or bravado. The evaluator looks for **control, awareness, legal compliance, and safety**.

B. BLOWBAGETS pre-driving check

A standard Filipino driving-school reminder is **BLOWBAGETS**:

- **B** – Battery
- **L** – Lights
- **O** – Oil
- **W** – Water
- **B** – Brakes
- **A** – Air
- **G** – Gas
- **E** – Engine
- **T** – Tires
- **S** – Self

Example checks

- Battery: secure terminals, normal starting.
- Lights: headlights, brake lights, signal lights, hazard lights.
- Oil: enough engine oil.
- Water: radiator/coolant and washer fluid as needed.

- Brakes: pedal response and parking brake.
- Air: correct tire pressure.
- Gas: enough fuel for the trip or test.
- Engine: no strange warning signs or abnormal noise.
- Tires: no dangerous damage, enough tread.
- Self: driver is alert, sober, calm, and medically fit.

C. Cockpit drill before moving

Before you drive:

1. Adjust the seat.
2. Adjust side mirrors and rearview mirror.
3. Wear the seat belt.
4. Confirm gear position and foot placement.
5. Check surroundings.
6. Start the engine properly.
7. Signal before moving if needed.

This is one of the easiest places to lose points in a practical test if done carelessly.

D. Proper hand position and steering

A common safe steering position is **9 and 3 o'clock**.
Keep both hands ready except when shifting or performing specific maneuvers.

Steering principles:

- steer smoothly,
- avoid overcorrection,
- return the wheel under control,
- do not palm-spin recklessly.

E. Starting, moving off, and stopping

Moving off

Before moving from the curb or parking position:

- check mirrors,
- signal,
- check blind spots,
- move only when safe.

Stopping

A good stop is:

- smooth,
- straight,
- controlled,
- not late and not abrupt.

F. Use of mirrors and blind spots

Mirrors are for continuous awareness, not one-time use only.
Check:

- before moving,
- before slowing significantly,
- before turning,
- before changing lanes,
- before overtaking,
- before parking,
- before reversing.

Blind spots are not fully shown by mirrors. Always do a proper visual check when needed.

G. Lane discipline and lane changing

Good lane discipline means:

- staying centered in your lane,
- not weaving,
- not cutting suddenly,
- not drifting over markings.

Proper lane change sequence:

1. Check rearview and side mirrors.
2. Signal early.
3. Check blind spot.
4. Change lanes smoothly.

5. Cancel signal if needed.

H. Following distance

Use at least the **3-second rule** in normal conditions.
Increase this when:

- raining,
- driving at night,
- following motorcycles,
- carrying passengers,
- driving downhill,
- visibility is poor.

I. Braking and acceleration

A skilled PDC student:

- accelerates gradually,
- brakes progressively,
- avoids panic inputs,
- matches speed to road conditions.

Common test mistake: sudden braking when there was enough time to stop smoothly.

J. Turning, intersections, and roundabouts

Turning

- signal early,
- position correctly,
- slow down before the turn,
- look for pedestrians and cross traffic,
- turn into the proper lane when applicable.

Intersections

- reduce speed,
- scan left-right-left or as instructed,
- obey stop lines and signs,
- yield when required.

Roundabouts

- yield to traffic already inside,
- enter only when safe,
- signal appropriately when exiting.

K. Overtaking

In practical driving, overtaking is judged on safety and legality.

Checklist:

- legal to overtake,
- road ahead is clear,

- mirrors checked,
- signal used,
- enough distance,
- return safely.

Never overtake in prohibited areas.

L. Parking maneuvers

1. Parallel parking

Goal: park beside the curb neatly without hitting another vehicle or markers.

Core method:

- align properly,
- reverse slowly,
- turn at the right time,
- straighten,
- adjust if needed.

2. Reverse parking

Goal: back into a parking slot within lines.

Core method:

- position the vehicle correctly before reversing,
- use mirrors,
- reverse slowly,

- correct the wheel gradually,
- finish centered.

3. Angle parking

Goal: enter a diagonal slot cleanly and stop centered.

M. Three-point turn

Used to change direction where a U-turn is not practical or not allowed.

Key points:

- check traffic before each movement,
- move slowly,
- use proper steering,
- do not mount the curb or hit markers.

N. Hill driving basics

Uphill

- maintain enough power and control,
- avoid rolling backward.

Downhill

- control speed,
- do not coast in neutral,
- use proper braking and gear control.

O. Driving in rain or low visibility

PDC safety points:

- reduce speed,
- use lights correctly,
- increase distance,
- brake earlier,
- avoid sudden steering.

P. Common causes of failure in practical tests

Students often fail or lose points because they:

- forget seat belt,
- fail to signal,
- do not check mirrors/blind spots,
- hit cones or lines,
- stop beyond the stop line,
- move too fast during parking,
- show poor control,
- ignore pedestrians,
- panic.

Q. Practical test mindset

Driving-school advice:

- do not rush,
- follow instructions carefully,
- if unsure, choose the safer legal action,
- smooth and safe beats fast and flashy,
- recover calmly from small mistakes.

---

7. 50 medium multiple-choice questions for PDC

1. What does BLOWBAGETS refer to?
   A. Vehicle inspection checklist
   B. Type of parking
   C. Traffic sign
   D. License category
   Answer: A

2. The letter “B” in BLOWBAGETS stands for:
   A. Battery
   B. Body
   C. Belt
   D. Bumper
   Answer: A

3. The letter “L” in BLOWBAGETS stands for:
   A. Lane
   B. Lights
   C. License
   D. Lever
   Answer: B

4. The letter “O” in BLOWBAGETS stands for:
   A. Oil
   B. Overtaking
   C. Operator
   D. Outlet
   Answer: A

5. The letter “W” in BLOWBAGETS stands for:
   A. Wheel
   B. Water
   C. Warning
   D. Washer only
   Answer: B

6. Proper hand position on the steering wheel is commonly:
   A. 12 and 6
   B. 9 and 3
   C. 1 and 11 only
   D. 5 and 7
   Answer: B

7. Before moving the vehicle, the driver should first:
   A. Rev the engine
   B. Fasten seat belt and check surroundings
   C. Honk continuously
   D. Release the handbrake immediately
   Answer: B

8. Before changing lanes, a driver must:
   A. Accelerate first
   B. Check mirrors and signal
   C. Close the eyes briefly
   D. Brake hard
   Answer: B

9. Blind spots are:
   A. Areas clearly visible in mirrors
   B. Areas not visible in mirrors
   C. Areas under the dashboard
   D. Areas behind the rear seats only

Answer: B

10. The 3-second rule is used for:
    A. Turning
    B. Safe following distance
    C. Parking
    D. Overtaking
    Answer: B

11. Parallel parking means:
    A. Parking beside the curb in line with other vehicles
    B. Parking diagonally
    C. Parking across two spaces
    D. Parking on a slope only
    Answer: A

12. Reverse parking means:
    A. Entering a parking slot backward
    B. Parking in reverse gear for one second
    C. Parking on the shoulder
    D. Parking behind a jeepney only
    Answer: A

13. A three-point turn is used to:
    A. Increase speed
    B. Change direction on a narrow road
    C. Enter an expressway
    D. Practice overtaking
    Answer: B

14. Before reversing, the driver should:
    A. Depend only on sensors
    B. Check mirrors, look behind, and move slowly
    C. Accelerate at once
    D. Use high beam
    Answer: B

15. Proper braking during normal driving should be:
    A. Sudden and hard
    B. Smooth and controlled

C. Done with the handbrake only
D. Avoided whenever possible
Answer: B

16. Proper acceleration should be:
    A. Abrupt
    B. Gradual and smooth
    C. Maximum immediately
    D. Done only in neutral
    Answer: B

17. When starting from a parked position, the driver should:
    A. Move immediately
    B. Signal, check mirrors and blind spots, then move
    C. Honk and go
    D. Reverse first
    Answer: B

18. The purpose of mirror adjustment is to:
    A. See your face clearly
    B. Minimize blind spots and monitor traffic
    C. Improve radio sound
    D. Help parking attendants only
    Answer: B

19. A good driving position helps:
    A. Reduce control
    B. Improve comfort and control
    C. Eliminate the need for mirrors
    D. Make the vehicle faster
    Answer: B

20. When making a tight turn, steering should be:
    A. Random
    B. Controlled and appropriate
    C. Done with one finger only
    D. Avoided
    Answer: B

21. When backing into a parking slot, the driver should:
    A. Move quickly
    B. Move slowly and check both sides
    C. Ignore mirrors
    D. Rely only on another person's signal
    Answer: B

22. Before fully parking, the driver should:
    A. Leave the vehicle rolling
    B. Ensure the vehicle is properly positioned and secure
    C. Open the door while still moving
    D. Turn off the lights first while moving
    Answer: B

23. The handbrake is mainly used to:
    A. Speed up the car
    B. Keep the vehicle from moving when parked
    C. Replace the foot brake at high speed
    D. Turn corners
    Answer: B

24. A driver should check tire condition because tires affect:
    A. Steering and braking safety
    B. Music quality
    C. Seat comfort
    D. Plate number visibility
    Answer: A

25. When driving through cones in a practical test, the driver should:
    A. Rush through
    B. Move slowly and accurately
    C. Ignore alignment
    D. Use the horn often
    Answer: B

26. The safest lane change is one that is:
    A. Sudden
    B. Signaled and done when clear
    C. Done without mirrors
    D. Done while braking hard

Answer: B

27. During the practical test, forgetting to wear a seat belt may:
    A. Be ignored
    B. Count as an error or cause failure
    C. Add bonus points
    D. Be allowed if the road is empty
    Answer: B

28. A driver should use turn signals:
    A. Only when other cars are near
    B. Before turning or changing lanes
    C. After finishing the turn
    D. Only at night
    Answer: B

29. Which is best when approaching an intersection during a practical test?
    A. Accelerate to clear it fast
    B. Slow down, observe, and proceed safely
    C. Ignore pedestrians
    D. Change lanes inside the intersection
    Answer: B

30. Before entering the road from a driveway, the driver must:
    A. Force entry
    B. Yield to road traffic and pedestrians
    C. Honk and go
    D. Reverse into traffic
    Answer: B

31. A driver should avoid coasting in neutral because it:
    A. Improves control
    B. Reduces vehicle control
    C. Saves tires
    D. Improves braking response
    Answer: B

32. During parking, the best speed is:
    A. Fast
    B. Slow and controlled

C. Maximum throttle
D. Same as highway speed
Answer: B

33. If the examiner gives an instruction, the student should:
A. Ignore it if confident
B. Listen carefully and follow safely
C. Argue first
D. Ask another student
Answer: B

34. Proper use of the foot brake while stopping should result in:
A. A smooth stop
B. A sudden jolt
C. Skidding
D. Engine failure
Answer: A

35. While waiting to turn, the driver should keep the vehicle:
A. Stable and under control
B. Halfway into another lane
C. Rolling freely
D. In reverse
Answer: A

36. What is the safest attitude during the practical test?
A. Calm and attentive
B. Showy and aggressive
C. Competitive
D. Rushed
Answer: A

37. Before a three-point turn, the driver should:
A. Check surroundings and ensure the road is clear
B. Accelerate hard
C. Ignore oncoming traffic
D. Turn without signaling
Answer: A

38. The purpose of BLOWBAGETS is to:
    A. Memorize traffic signs
    B. Check vehicle roadworthiness before driving
    C. Learn parking faster
    D. Improve road speed
    Answer: B

39. A student driver should develop the habit of checking mirrors:
    A. Frequently
    B. Never
    C. Only while parking
    D. Only when told
    Answer: A

40. Proper lane discipline means:
    A. Stay within your lane unless changing safely
    B. Swerve often
    C. Use two lanes at once
    D. Drive on the shoulder
    Answer: A

41. When the road is wet during a practical drive, the student should:
    A. Reduce speed
    B. Drive faster to finish quickly
    C. Ignore the condition
    D. Use the horn continuously
    Answer: A

42. A good parking finish means the vehicle is:
    A. Crooked and touching a line
    B. Properly aligned and secure
    C. Still moving slightly
    D. Blocking another slot
    Answer: B

43. Before opening the door after parking, the driver should:
    A. Open it immediately
    B. Check for approaching traffic
    C. Honk first
    D. Release the handbrake

Answer: B

44. If a driver feels nervous during the test, the best response is to:
    A. Rush to finish
    B. Breathe, focus, and continue carefully
    C. Ignore the examiner
    D. Drive faster
    Answer: B

45. When moving off from a stop, the driver should:
    A. Check mirrors and surroundings first
    B. Accelerate without looking
    C. Depend on luck
    D. Use hazard lights
    Answer: A

46. Why is smooth steering important?
    A. It keeps better control of the vehicle
    B. It makes the car louder
    C. It weakens the tires
    D. It removes blind spots
    Answer: A

47. Reverse parking is easier and safer when the driver:
    A. Moves slowly and uses mirrors correctly
    B. Closes one eye
    C. Accelerates into the slot
    D. Ignores spacing
    Answer: A

48. A medium-speed, controlled practical drive shows the examiner that the student:
    A. Is reckless
    B. Has good control and judgment
    C. Is afraid to drive
    D. Does not know traffic laws
    Answer: B

49. During the PDC test, hitting cones usually means:
    A. Perfect parking
    B. Loss of points or a test error

C. Automatic bonus
D. No effect
Answer: B

50. The best overall principle in practical driving is to:
A. Impress with speed
B. Stay smooth, safe, and controlled
C. Drive aggressively
D. Copy other drivers
Answer: B
